

Where We Belong

Christiane Niemann

- Verse 1 When our journey first began - your eyes were full of pain
You could not move - she had left you standing still
I tried to reach your heart - but it was cold as ice
The warmth I gave - you took and kept within
All I had to give you kept - and would it let me near you
I couldn't find the fire to thaw your heart
- Chorus 1 Come my darling walk with me
Trough the storm, into the sun
Come my love stay near by me
I'll hold you close, here where we both belong
- Verse 2 Then you turned and looked at me - a spark was in your eyes
You took a step - and warmth began to flow
You looked to the future then - but walked the path alone
The love I gave - you took and kept within
Then you looked into my eyes - I saw you real and deep inside
Your heart was mine and yours to give
- Chorus 2 Come my darling...
- Bridge I took your hand
You moved to me with dancing eyes
Looked to me and met my heart
Together one
You took your heart and gave it to me
Two are one
- Chorus 3 Come my darling...
